Culture & Language

Learn a language...
We created A-viva to make a difference. A-viva is an innovative language institute based on the concept of learning new languages by actively participating in various cultural, sports and social activities with native speakers in a stimulating and fun environment...

Chill out & party...
In our most popular spot, the A-viva lounge, students chill out and enjoy free morning coffee/tea. In the evening, the A-viva lounge turns into an event room where native speakers and A-viva students come together for piano concerts, tango workshops, disco parties, video nights, pot-luck dinners, cooking classes, literary seminars, book readings, game nights, etc.

Build a connection...
Everyone learns, everyone wins: our students benefit from a great learning experience with new friendships and interesting contacts, our teachers enjoy the creative teaching possibilities. We organize weekly events for students to mingle with native speakers from various backgrounds. Members of the local and international communities in the city take part in many of our cultural events, thus further enriching the atmosphere here.
